## Product Description

### Hyundai Elantra AC PIPELINE OEM 97762-M6050 1.6L 2.0L 2018

#### Product Description:

Our A/C Pipes are highly flexible, making them perfect for refrigerant lines. They can easily bend and maneuver around tight spaces, making installation a breeze. The silver and black color adds a sleek touch to your A/C system, seamlessly blending in with your other components.

With a temperature range of -40 to 140 degrees Fahrenheit, these pipes are perfect for maintaining a consistent temperature in your A/C system. Whether you're looking to cool down your home or office, our A/C Pipes can handle it all. They are designed to withstand extreme temperatures and maintain their flexibility, ensuring optimal performance.

By optimizing material formula and structural design, automotive air conditioning pipes have low refrigerant permeability, especially for the new refrigerant R1234yf, which can effectively reduce refrigerant leakage.
