888-535 Suction Hino Truck Air Conditioning Pipeline

Product Description:

Our air conditioning ducting is primarily constructed of aluminum, combined with highly flexible hoses, allowing it to bend and move easily in tight spaces. It seamlessly integrates with other components of the vehicle's air conditioning system, making installation a breeze. We use high-quality rubber or synthetic materials that are resistant to pressure, corrosion, and aging, and incorporate reinforced braiding to ensure excellent pressure, vibration, and weather resistance, making it easily resistant to complex road conditions and extreme temperatures. We understand that safety is paramount and strictly adhere to industry standards to provide you with a long-lasting, stable, safe, and worry-free air conditioning system.
