

DAF H-DA-002 Air Conditioning Suction Pipeline XF105 CE410 Trucks

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Freedom Future
- Model Number: ZS-887-101
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: standard packing, as customer demands
- Delivery Time: 7 - 15 working Days
- Payment Terms: L/C,T/T,etc.

Product Specification

- Pressure Rating: Up To 300 Psi
- Color: Silver/Black
- Temperature Range: -40°C To 140°C
- Weight: Lightweight
- Oem Part Number: None
- Flexibility: Flexible
- Material: Aluminum And Rubber
- Resistance: Corrosion Resistant
- Highlight: **DAF XF105 AC suction pipe, truck air conditioning pipeline, CE410 AC suction hose**

DAF XF105 CE410 Suction Pipeline

Product Description:

Our air conditioning ducting is primarily constructed of aluminum, combined with highly flexible hoses, allowing it to bend and move easily in tight spaces. It seamlessly integrates with other components of the vehicle's air conditioning system, making installation a breeze. We use high-quality rubber or synthetic materials that are resistant to pressure, corrosion, and aging, and incorporate reinforced braiding to ensure excellent pressure, vibration, and weather resistance, making it easily resistant to complex road conditions and extreme temperatures. We understand that safety is paramount and strictly adhere to industry standards to provide you with a long-lasting, stable, safe, and worry-free air conditioning system.

- Integrating advanced technology
- Compressive and seismic resistance
- Sturdy, durable and outstanding

- Selected high-quality rubber
- Excellent flexibility
- Shock resistant and adaptable to complex installations
- Reliable quality

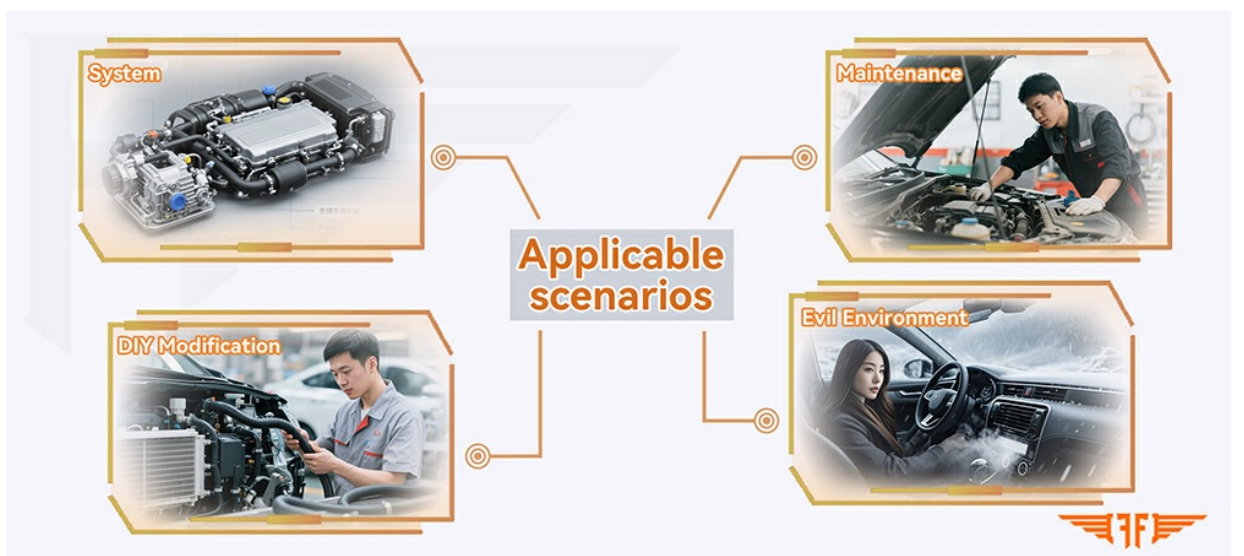

Co-branding:

Technical Parameters:

Shape	Curved tubular structure
Temperature Range	-40-140 Degrees Fahrenheit
Connection Type	Withhold
Durability	Durable
Pressure Rating	300 Psi
Corrosion Resistance	High
Compatibility	Compatible With Most A/C Systems
Color	Silver/Black
Weight	1.5 Lbs
Flexibility	Flexible

Applications:

About Us

Foshan Free Future Auto Parts Co., Ltd. is a professional automotive air conditioning parts supplier integrating development, production, and sales. Its parent company, Yingzhixue Auto Air Conditioning Parts Co., Ltd., operates a factory in Foshan, Guangdong. The company specializes in complete automotive air conditioning piping solutions (including high- and low-pressure pipes and components), and also sells air conditioning accessories such as expansion valves and

compressors. Since its establishment in 2004, the company has been deeply engaged in the research, development, production, and sales of related products for automotive manufacturers and the aftermarket, earning the trust of domestic and international customers. Its products meet international standards and are ISO 9001 and IATF 16949 certified, ensuring consistent quality management throughout the entire process. Its clients include world-renowned automakers and parts distributors, and its products are exported to markets throughout North America, Europe, and Asia.

Transport

We have a mature logistics after-sales team covering the entire sea, land and air area to ensure that every journey is accurate and error-free.

Service & Support

Continuous innovation and research and development, diverse accessories, supporting standards and customization.

We meet your needs in all aspects and are your trusted accessory supply partner.
