

Toyota 88711-22740 Cressida Discharge Air Conditioning Tube For Car Fits 89-96

Our Product Introduction

for more products please visit us on futureacparts.com

Basic Information

- Place of Origin: China
- Brand Name: Freedom Future
- Model Number: 88711-22740
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: standard packing, as customer demands
- Delivery Time: 7 - 15 working Days
- Payment Terms: L/C, T/T, etc.

Product Specification

- Pressure Rating: Up To 300 Psi
- Color: Silver
- Temperature Range: -40°C To 140°C
- Weight: Lightweight
- Oem Part Number: 88711-22740
- Flexibility: Flexible
- Material: Aluminum
- Resistance: Corrosion Resistant
- Installation: Easy
- Durability: High
- Highlight: Toyota Cressida AC discharge tube,
89-96 Toyota AC pipe,
car air conditioning discharge tube

Product Description

Toyota 88711-22740 Cressida Discharge AC pipeline Fits 89-96

Product Description:

Our air conditioning ducting is primarily constructed of aluminum, combined with highly flexible hoses, allowing it to bend and move easily in tight spaces. It seamlessly integrates with other components of the vehicle's air conditioning system, making installation a breeze. We use high-quality rubber or synthetic materials that are resistant to pressure, corrosion, and aging, and incorporate reinforced braiding to ensure excellent pressure, vibration, and weather resistance, making it easily resistant to complex road conditions and extreme temperatures. We understand that safety is paramount and strictly adhere to industry standards to provide you with a long-lasting, stable, safe, and worry-free air conditioning system.

About Us

Foshan Free Future Auto Parts Co., Ltd. is a professional automotive air conditioning parts supplier integrating development, production, and sales. Its parent company, Yingzhixue Auto Air Conditioning Parts Co., Ltd., operates a factory in Foshan, Guangdong. The company specializes in complete automotive air conditioning piping solutions (including high- and low-pressure pipes and components), and also sells air conditioning accessories such as expansion valves and compressors. Since its establishment in 2004, the company has been deeply engaged in the research, development, production, and sales of related products for automotive manufacturers and the aftermarket, earning the trust of domestic and international customers. Its products meet international standards and are ISO 9001 and IATF 16949 certified, ensuring consistent quality management throughout the entire process. Its clients include world-renowned automakers and parts distributors, and its products are exported to markets throughout North America, Europe, and Asia.

Transport

We have a mature logistics after-sales team covering the entire sea, land and air area to ensure that every journey is accurate and error-free.

Service & Support

Installation support and guidance
Maintenance and repair services
Product testing and analysis
Customization and design services

Continuous innovation and research and development, diverse accessories, supporting standards and customization.

We meet your needs in all aspects and are your trusted accessory supply partner.
