

64539228235 Air Conditioning Suction BMW Pipeline Fit For X3 X4 F25 F26 2.0L 2013-2016

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Freedom Future
- Model Number: 7001-2
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: standard packing, as customer demands
- Delivery Time: 7 - 15 working Days
- Payment Terms: L/C,T/T,etc.

Product Specification

- Pressure Rating: 300 Psi
- Color: Silver
- Temperature Range: -40°C To 140°C
- Weight: Lightweight
- Oem Part Number: 64539228235
- Flexibility: Flexible
- Material: Aluminum
- Resistance: Corrosion Resistant
- Highlight: **BMW AC suction pipeline for X3 X4,
BMW F25 F26 AC pipe 2.0L,
BMW X3 X4 AC pipeline with warranty**

64539228235 Air Conditioning Suction Pipeline for BMW X3 X4 F25 F26 2.0L (2013-2016)

This OEM-compatible air conditioning discharge pipe ensures optimal performance and reliability for BMW F25 F26 models.

Advanced Multi-Layer Construction

Our automotive air conditioning hoses feature engineered multi-layer construction for superior performance and durability in demanding applications.

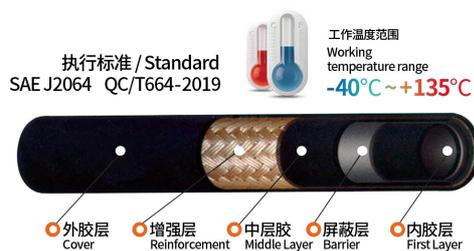

Inner & Middle Rubber Layers: Chloroprene rubber (CR) provides excellent anti-permeation performance with low refrigerant permeability and resistance to compressor oils

Nylon Shielding Layer: Nylon 6 material offers exceptional toughness, shock resistance and heat resistance while reducing refrigerant penetration

Specification Diversity: Available in various specifications including $\Phi 8$, $\Phi 10$, $\Phi 13$, $\Phi 16$, $\Phi 19$ to meet different model and system requirements

Application & Function

Automobile air conditioning pipes transport refrigerants to achieve cooling and heating of the air inside the vehicle, providing a comfortable environment for passengers. The air conditioning system regulates interior temperature by absorbing and releasing heat through refrigerant circulation in the pipes.

Vehicle Compatibility

Suitable for commercial vehicles, passenger cars, and off-road vehicles.

Product Specifications

Automobile air conditioning pipes are essential components of automotive AC systems, primarily used to transmit refrigerants and ensure normal system operation. The rubber portion typically employs multi-layer construction to guarantee performance and reliability in various engine compartment working environments.

Technical Support & Services

Our technical support team provides comprehensive assistance for all your AC system requirements:

- Installation guidance and support
- Maintenance and repair services
- Product testing and analysis
- Customization options

EXHIBITION PARTICIPATION (FACTORY)

Our company specializes in automotive air-conditioning solutions with core products including cooling nets, expansion valves, and air-conditioning pipes. Contact our expert team for installation, maintenance, or troubleshooting assistance with your AC hose system.
