

Mercedes Benz Dis and Suc Pipeline Air Conditioning A1668300100 Fit For ML350 GL350 2012-2014

Our Product Introduction

for more products please visit us on futureacparts.com

Basic Information

- Place of Origin: China
- Brand Name: Freedom Future
- Model Number: B7011-11
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: standard packing, as customer demands
- Delivery Time: 7 - 15 working Days
- Payment Terms: L/C,T/T,etc.

Product Specification

- Pressure Rating: 300 Psi
- Color: Silver
- Temperature Range: -40°C To 140°C
- Weight: Lightweight
- Oem Part Number: A1668300100
- Flexibility: Flexible
- Material: Aluminum
- Resistance: Corrosion Resistant
- Highlight: Mercedes Benz AC pipe for ML350 GL350 ,
Mercedes Benz DIS SUC pipeline,
Mercedes Benz air conditioning pipe 2012-2014

A1668300100 Twin Pipeline for Mercedes Benz ML350 GL350 2012-2014

Multi-Layer Reinforced Construction

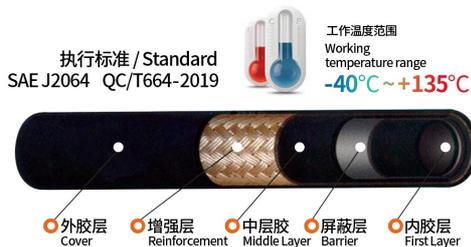

Our A/C hoses feature a high-strength multi-layer structure designed for durability and safety under demanding operating conditions.

- Inner rubber layer for optimal refrigerant compatibility
- Nylon barrier layer to prevent refrigerant permeation
- Intermediate rubber layer for enhanced flexibility
- High-strength fiber reinforcement layer for pressure resistance
- Outer rubber protective layer for abrasion and environmental protection

This advanced design ensures excellent mechanical performance and extended service life for your vehicle's air conditioning system.

C 型空调软管 Type C Air Conditioner Hose

适合制冷剂 / Applicable refrigerant
R134a, HFO-1234yf

High-Performance A/C Hoses

Automotive air conditioning hoses play a critical role in transferring refrigerant within the vehicle's climate control system. They connect essential components including the compressor, condenser, evaporator, and expansion valve to ensure efficient cooling performance.

Our automotive A/C hoses are manufactured using advanced multi-layer barrier technology, offering superior resistance to high pressure, high temperature, and refrigerant permeation. Designed for maximum durability and reliability, they are widely used in passenger vehicles, SUVs, light trucks, and commercial vehicles worldwide.

High-Performance A/C Hoses

The integrated nylon barrier layer significantly reduces refrigerant leakage and improves the sealing performance of the air conditioning system.

Compatible with modern refrigerants including:R134a/R1234yf

This ensures compliance with environmental standards and improved system efficiency.

Technical Support & Services

We also support OEM and customized production based on customer requirements.

Customization options include:

- OEM number development
- Custom hose length
- Specific fittings and connectors
- Vehicle-specific assembly designs

EXHIBITION PARTICIPATION (FACTORY)

Why Choose Us

- ✓ Extensive experience in automotive A/C components.
- ✓ OEM-quality manufacturing standards.
- ✓ Wide product coverage for global vehicles.
- ✓ Stable supply for distributors and wholesalers.
- ✓ Professional export service and technical support.
