

9122114 Car A/C High Pressure&Low Pressure pipeline Fit For 1998-2005 Opel Astra G

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Freedom Future
- Model Number: 101080
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: standard packing, as customer demands
- Delivery Time: 7 - 15 working Days
- Payment Terms: L/C,T/T,etc.

Product Specification

- Pressure Rating: 300 Psi
- Temperature Range: -40°C To 140°C
- Material: Aluminum
- OEM Part Number: 9122114
- Construction Layers: Multi-layer Reinforced
- Resistance: Corrosion Resistant
- Type: High Pressure&Low Pressure
- Color: Black
- Highlight: Opel Astra G AC pipeline,
GMC AC high pressure pipe,
1998-2005 Opel AC pipe

9122114 Twin Air Conditioning Pipelines for Opel Astra G

High-Performance A/C Hoses for Global Aftermarket & OEM Supply

Automotive air conditioning hoses play a critical role in transferring refrigerant within the vehicle air conditioning system. They connect key components such as the compressor, condenser, evaporator, and expansion valve to ensure efficient cooling performance.

With strict quality control and extensive vehicle coverage, our products meet the demands of the global automotive aftermarket and OEM customers.

Superior Flexibility

The flexible rubber structure allows the hose to be easily installed in complex engine layouts.

Advantages:

1. Easy installation
2. Reduced vibration stress
3. Lower risk of fatigue cracking

Excellent Temperature Resistance

Automotive air conditioning hoses are exposed to extreme temperature conditions inside the engine compartment.

Our hoses are designed to withstand a wide temperature range:

Operating Temperature Range: -40°C to +135°C

Quality Control

To ensure consistent product quality and reliability, every hose undergoes strict testing procedures:

- pressure resistance testing
- material inspection
- dimensional accuracy inspection
- 100% leak testing

Our manufacturing process follows international automotive quality standards to ensure reliable performance for global customers.

Custom Manufacturing Service

We also support OEM and customized production based on customer requirements.

Customization options include:

- OEM number development
- specific fittings and connectors
- vehicle-specific assembly designs

Our engineering team can assist in developing new products for aftermarket or OEM projects.
