Product Description

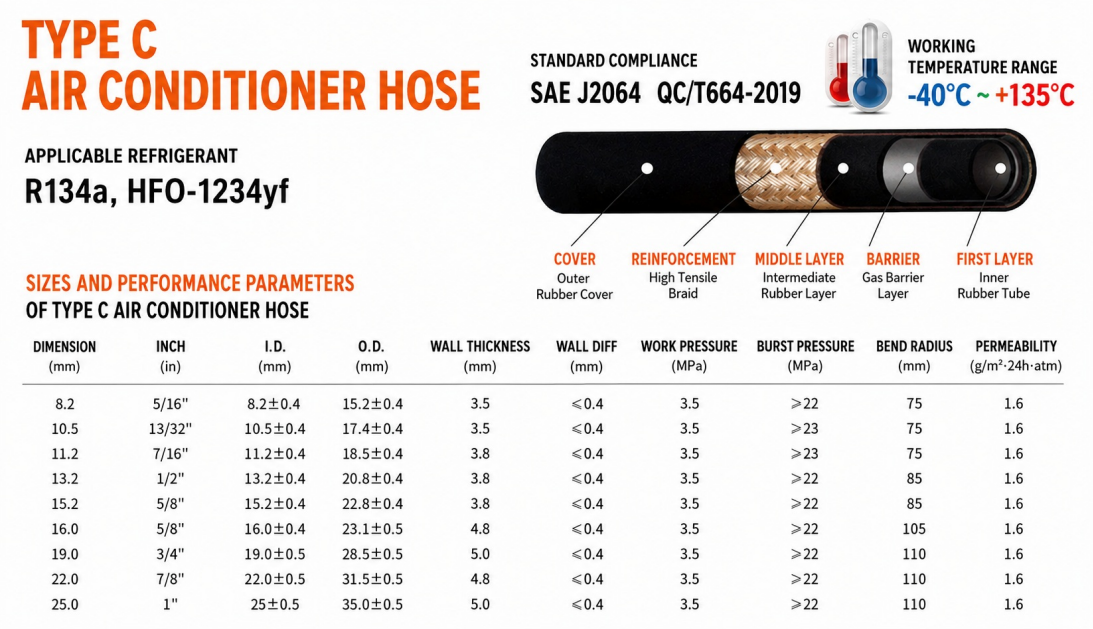

95933265 Car AC Hose Pipe For GMC Chevrolet Aveo

Product Description:

Our automotive air conditioning pipe is mainly made of aluminum combined with a highly elastic hose, so it can be easily bent and routed in tight engine bays and integrates seamlessly with the other components of the car air conditioning system, making installation a breeze.

Each pipe is rigorously tested and screened before shipment. We select high grade rubber and synthetic materials that resist high pressure, corrosion and aging, reinforced with braided layers for excellent compression, vibration and weather resistance.

Precision welded or one-piece metal joints with high performance sealing rings ensure leak-free performance throughout the service life. Direct replacement fit, no modification required.
