51743795 Fiat Doblo AC Discharge Hose Klima Borusu 1.3 1.9 JTD 1.8 Petrol

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Freedom Future
- Certification: ISO 9001
- Model Number: 101211
- Minimum Order Quantity: 50 PCS
- Price: Negotiable
- Packaging Details: Neutral carton with EPE protection, custom color box available
- Delivery Time: 7-15 working days
- Payment Terms: T/T,L/C,Western Union
- Supply Ability: 20000 pcs per month

Product Specification

- OEM Part Number: 51743795
- Product Type: AC Discharge Pipe / High Pressure Line
- Position On Circuit: Compressor To Condenser, High Pressure Side
- Hose Material: EPDM With Nylon Barrier Layer
- Working Pressure: Up To 300 Psi
- Refrigerant Compatibility: R134a / R1234yf
- Burst Pressure: 18–25 MPa
- Net Weight: 350 G
- Highlight: **51743795 Fiat Doblo AC hose**, **Doblo Klima Borusu**, **Fiat Doblo AC discharge pipe**

Product Description

The number 51743795 comes from the Fiat / Lancia – Mopar original-equipment system, and in Turkish workshops the same part is ordered as **Klima Borusu**. It is the compressor-to-condenser high-pressure line for the first-generation Fiat Doblo, a van that works all day with the air-conditioning loaded, so the joint has to hold its charge over years rather than weeks.

OE Number and the Klima Borusu Name

Buyers reach this page under three labels: the OE number 51743795, its long form 0051743795, and the local aftermarket term Klima Borusu. All point to the same discharge line. Because it is a genuine Mopar-system reference, we list the OE identity plainly rather than inventing aftermarket cross numbers.

Doblo I Coverage

Body	Chassis	Years	Engine
Doblo I Cargo	223_	2005–2010	1.3 / 1.9 JTD, 1.8 petrol
Doblo I MPV	119_	2005–2010	1.3 / 1.9 JTD, 1.8 petrol

Specifications

Item	Value
Position	Compressor to condenser, high side
Working / burst	300 psi / 18–25 MPa
Net weight	350 g
Refrigerant	R134a / R1234yf
Certification	IATF 16949 / ISO 9001

Testing and Warranty

Each assembly is proof-tested and helium-sniffed before packing, and the lot code is printed on the label for traceability. The line carries a 12-month or 30,000-mile warranty against manufacturing defects, claims handled from photos and the code without a return first.

A Doblo on delivery work cycles the compressor far more than a private car, so the discharge line lives in near-continuous heat and pressure. The Mopar-spec 51743795 assembly is matched to that duty with a temperature-stable EPDM cover and a nylon barrier, which is the real difference between a line that lasts several seasons and one that leaks inside a year. Workshops that service Doblo fleets keep this number on the shelf precisely because the duty is so hard on the hose.

type="application/ld+json">{"@context": "https://schema.org", "@type": "FAQPage", "mainEntity": [{"@type": "Question", "name": "Is 51743795 the same as Klima Borusu?", "acceptedAnswer": {"@type": "Answer", "text": "Yes. Klima Borusu is the Turkish term workshops use for this A/C hose; the OE number behind it is 51743795 (long form 0051743795) from the Fiat / Lancia – Mopar system."}}, {"@type": "Question", "name": "Does it fit both the Doblo cargo and MPV?", "acceptedAnswer": {"@type": "Answer", "text": "Yes, both the 223_ cargo and 119_ passenger Doblo I use this line; confirm the chassis code and VIN with us before ordering."}}]}
